

Devils Lake MX Battles Hard at a Tough Nanaimo Track

Savage salvages 7th in MX2, while rookie Streichert soldiers for 19th in MX1

Tuesday June 9, 2015 – Heading into RD2 of the Rockstar Energy Drink Nationals the Devils Lake MX team was ready to improve on what was a great start to the year in Kamloops just one week prior. “So many hrs get put into going racing under the Devils Lake MX Tent that it’s weekends like this that really show how hard we all work,” states Team Owner Trevor Cerny. “We had a tough weekend, but our riders never gave up and earned points to stay in the hunt for the points chase.” This weekend we head to Calgary, AB which is considered our home race for the team. The riders are excited to get Nanaimo done and move to some more comfortable surroundings.

“I had one of the craziest days of racing today,” shares Blake. “It was definitely not my best day of racing, but I’m glad to walk away in one piece and ready keep working away. Somehow I kept a smile on my face and a good attitude about it. Thanks to my whole team for the hard work again, we’ll get there.”

“Now that is what a tough track looks like,” shared Jake Streichert. “I feel like I was in a maze doing so many laps and never really finding my way. Getting out of there intact makes it a happy day for me. I rode well all day, but bad starts and tough passing conditions made for a tough overall. I got points and that’s what matters as a rookie. The team is behind me and that’s what keeps me fighting each lap knowing I’m part of the Devils Lake MX family. I’m really looking forward to Calgary.”

With Blake Savage sitting 5th in points, and rookie Streichert in 14th the year has started well for Devils Lake MX. I’m very happy with the program right now,” says Cerny. “I know our riders are putting in the effort and the breaks will come our way with a positive attitude each weekend. Devils Lake MX can’t thank the riders, staff, and our amazing sponsors enough for the support thus far in 2015.”
